Art Unit: 1616

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1-3, 6-7, 89-93 are rejected under 35 U.S.C. 103(a) as being unpatentable over Spenlehauer et al (US 5,683,723) in view of Sakai et al.

Spenlehauer et al teach nanoparticles comprising polyoxyethylene and polylactic acid block copolymers (title). Diblocks endblocked with a methyl group at one end are specified (column formula I). However, the reference does not teach crosslinking.

Sakai et al teach polyether-polyester block copolymers (abstract). Addition of trifunctional compounds to achieve crosslinking is disclosed (column 3 lines 3-11).

It would have been obvious to one of ordinary skill to add trifunctional compounds to the polymers Spenlehauer to achieve the beneficial effect of crosslinking in view of Sakai et al.

No claims allowed.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
